PROJECTS

Sudoku Game

HTML, CSS, JavaScript

I made a sudoku game without the use of any CSS or JS library or framework. It has: 3 difficulty levels, timer, mistake & hints counter, options- new game, retry current game, hint, etc. Responsive design, dark mode.

Number Facts App

HTML, CSS, JavaScript, Numbers API, Rapid API, AJAX, Bootstrap

I made an app that displays facts of the number, year, date & a math fact related to the number the user enters. It does it asynchronously using AJAX API calls so the page doesn't have to reload every time. Responsive design.

PVR Demo Site

HTML, CSS, JavaScript

I made a demo/moc site of PVR cinemas to demonstrate my coding & designing skills. It includes carousal & the site is responsive.

EDUCATION

B.Tech CSE - Invertis University, Bareilly
2017-2021

Intermediate - BBL Public School, Bareilly
2017

Highschool - BBL Public School, Bareilly
2015

PARTICIPATIONS

Student volunteer at Auto Expo 2020 under SIAM

Runner up -IRC 2017

Coordinated Tech Week 2.0(2018) & Tech Week 3.0(2019), Invertis University, Bareilly

SKILLS

Java
JavaScript - ES6
